Beyond Gracie Combatives, Gracie Jiu-Jitsu consists of hundreds of advanced techniques, all of which have been organized into a clearly defined, systematic curriculum called The Master Cycle. The Master Cycle is broken down into seven positional chapters each of which is studied for several months before moving on to the next. To optimize your learning in the Master Cycle, it is important that you utilize a blend of technique classes, spar classes, and online classes at [GracieUniversity.com](http://GracieUniversity.com).

### TECHNIQUE CLASSES

Each technique class begins with a 15-20 minute review/warm-up period during which you will go over techniques from previous lessons, share/receive knowledge from your training partners, and explore any techniques that you may have learned online through Gracie University. After the review, the instructor will present 2-3 variations of a technique that pertains to the positional chapter of study. In a cooperative manner, you will practice the techniques with a partner.

### SPARRING CLASSES

Sparring classes are approximately 30 minutes long and usually take place immediately after technique classes. This is where you will have a chance to test your skills against a variety of training partners in a safe environment through a variety of training exercises, such as: Rapid Mastery Drills, Street Sparring, Focus Sparring Exercises, and Fight Simulation Drills. Students who do not train in a safe and productive manner will not be allowed to participate in sparring classes. If you are nursing an injury or you are new to the Master Cycle, you should not spar, and you are encouraged to use the sparring class time to review techniques with a cooperative partner until you are ready to spar. Remember to tap early, tap often, and always identify the hidden lessons when you spar.

### 24-HOUR PROGRESS

There is a remarkable difference in the rate of progress between students who study in their off-time and those who don't. As an active member of the Master Cycle program, you qualify for a free subscription to [GracieUniversity.com](http://GracieUniversity.com), which gives you unlimited online access to the Master Cycle video-based curriculum. If you haven't been granted access please speak to a receptionist. With this resource, you can review past lessons, learn new techniques, and prepare for future belt tests 24 hours a day from any computer or mobile device! Use GU to boost your progress on and off the mat!

### GROW AT YOUR OWN PACE

Unlike the Gracie Combatives program, which is entirely designed for new students to the art, the Master Cycle program caters to students of all belt levels from blue to black. As a result, you will often be exposed to techniques beyond your belt level. These advanced techniques should be practiced enthusiastically, and will give you a good idea of what to look forward to, but you should not burden yourself with the task of trying to memorize them all. If a move seems easy and applicable for you, take it, but if not, leave it alone and trust that you'll get it next time you cycle through that chapter. Remember, it's not a sprint, it's a marathon, and you're only racing against yourself, so be patient and have fun!
